Subject: RE: Formaldehyde and total leukemia
Attachments: Formaldehyde_Section4-5_CancerHazard and MOA_12-14-09.doc

Cheryl,

Tom is out this week.

This information is not included in the current draft.

There was some discussion of this in the previous draft; I have attached a short excerpt (from the previous Agency review, I believe)- there is a table and associated information around pg. 11 that you may find helpful. There may be additional materials on the L drive formaldehyde folder that provide further clarification, but I would not know where to look.

Andrew

Subject: Formaldehyde and total leukemia

Tom,

Can you forward to me or direct me to where I might find summary/evidence tables and/or forest plots on formaldehyde and total leukemia? Thinking that you may have summarized these data in an earlier draft or did so for the current draft, but just didn't present it.

Regards,
Cheryl
